Grant & Sponsorship Disclosure

2021 Global Report

At Gossamer Bio we partner with organizations advocating on behalf of patients around the world. Patient organizations and advocacy groups have a unique understanding of the needs of people living with medical conditions and how these conditions impact overall health and quality of life. Our collaborations with patient organizations, advocacy groups, and medical societies are driven by the spirit of partnership, mutual respect, trust, openness, and transparency, all with the overarching goal of bringing sustainable health benefits to patients and their families.

Recognizing the importance of transparency and its role in developing trusted relationships with stakeholders, the public and, more importantly, patients, Gossamer Bio voluntarily discloses our support across the globe.

Gossamer Bio endorses the European Federation of Pharmaceutical Industries and Associations (EFPIA) codes of conduct, and in accordance with these codes, annually discloses its relationships with patient organizations and fully complies with all legal and statutory requirements for disclosures. Disclosure reports will be posted by January 31st of the following year, and accessible via GossamerBio.com.

Glossary: Descriptions of Support

Event support

Support for an event, program, or meeting/conference coordinated, hosted, or co-hosted by the Recipient organization. Use of funds can range from costs of meeting logistics (e.g., cost to rent a meeting room), to other necessary provisions during the scope of the supported event (e.g., food, drinks, etc.).

Disease awareness and education

Awareness and educational programs directed at patients, caregivers, family members, health care professionals, and the greater health care community.

Organizational support

Funding for a general program support, including training, capacity building, patient support, patient-related resources, communications, and annual corporate membership fees.
